Fleet One Americas Leisure Plan

Stay safe, stay connected with unlimited data

Crafted for seasonal yacht and boat owners cruising around the Americas coastal regions, including the US, Caribbean and South America.

Losing signal and getting a slow data connection can make trying to use your mobile phone frustrating. Then there is the risk of roaming on to another network and coming home to the shock of a large bill.

Satellite communications is now an affordable option for checking in with the office or letting the kids update social media and talk to their friends while on board. Experience fast and truly unlimited data, on a seasonal subscription wherever you are with Fleet One.

Seasonal flexibility

The Fleet One Americas Leisure Plan has been designed to provide the flexibility you require at a price you can afford, with service suspension options for seasonal operations.

The compact antenna, which weighs only 3.9kg, has been designed with small motorboats and sailing yachts in mind, and is quick and easy to install.

Staying connected

With Fleet One Coastal, you can use the internet and make calls as if you were at home. You can use the standard “plug and play” Ethernet connection for your laptop, or connect your smartphones and tablets via an optional Wi-Fi router to access apps, so you can keep up with the news and sports results while you are away.

Fleet One also provides vital assistance with route planning and navigation through weather and chart updates. What’s more, it provides peace of mind knowing you can connect to land anytime.

Safety services

Fleet One supports Inmarsat’s free ‘505’ safety service, which in an emergency directs a call straight through to a Maritime Rescue Co-ordination Centre (MRCC) – no matter how bad the weather conditions. So you can set sail knowing that your life is in safe hands.

Unrivalled reliability

You can depend on Inmarsat, whatever the weather conditions. We provide the most robust communications links, with average network availability exceeding 99.9%, which is greater than that of any mobile phone provider.

The Fleet One terminal is specifically designed for use within the maritime environment. The terminal has been tested and approved to Inmarsat’s exacting standards.

Equipment

	Antenna
Diameter	27.6 cm
Height	29.2 cm
Weight	3.9 kg

Service

	Features
Data Standard IP	Up to 100kbps
Voice	4kbps AMBE+2

Applications

Fleet One supports an extensive range of applications:

Coverage

Fleet One Coastal is supported by Inmarsat's global network coverage and capability, ensuring you are never out of touch wherever you are.

In Home Region **Out of Home Region (voice only)** **Out of Home Region (voice and data available - data is charged at a different rate)**

This map depicts Inmarsat's expectations of coverage, but does not represent a guarantee of service. The availability of service at the edge of coverage areas fluctuates depending on various conditions.

Cost-effective

With Fleet One, you can have performance with flexibility at an affordable price with a choice of airtime pricing to suit your needs. You don't have to commit to a lengthy contract and you can suspend use when the boat is winterised. Alternatively, competitive rates are available on a prepaid voucher with no commitment required.
